EXPLANATORY NOTE

(This note does not form part of the Ordinance)

1. This explanatory note relates to the Overlapping Municipalities Ordinance 2011 (the “Ordinance”). It has been prepared by the Office of the Attorney General and Legal Adviser in order to assist the reader of the Ordinance. It does not form part of the Ordinance.
2. This notes needs to be read in conjunction with the Ordinance. It is not, and is not meant to be, a comprehensive description of the Ordinance. When a section or part of a section does not seem to require any explanation or comment, none is given.
3. The Ordinance comes into force on 5 December 2011
4. The Ordinance is intended to regulate the powers and duties of municipalities whose boundaries overlap with the boundaries of the Areas so that councils of such municipalities have the same powers in the Areas as they do in the Republic. The Ordinance is therefore based on the Republican Municipalities Laws of 1985 to 2011. A table showing the provisions in the corresponding Republican Law and the equivalent provisions in the Ordinance appears at the end of this Explanatory Note.
5. The election and appointment of the mayor, the municipal council and employees of an overlapping municipality are regulated by Part 4 of the corresponding Republican Law. The administration of municipalities is dealt with in Part 5 of the corresponding Republican Law and budgeting, finance and accounts is dealt with in Part 6. These provisions are not replicated in the Ordinance unless it is necessary to give the municipality a power or function within the Areas.
6. Section 4 of the Ordinance provides that municipalities established under the corresponding Republican Law are to have legal personality thus allowing any municipality to bring proceedings in the Areas.
7. Section 6 describes the persons who are citizens of a particular municipality and provides that the citizens of an overlapping municipality living in the Areas enjoy the same rights and are subject to the same obligations as if residing in the Republic in the municipality concerned.
8. Part 2 contains provisions relating to the administration of a municipality. Section 9 deals with the situation where an overlapping community becomes a municipality. The assets and liabilities of the Community in question transfer to the new municipality. Community bye-laws remain in force until new bye-laws have been made under the Ordinance and where applicable, fixed penalties may continue to be issued under the Fixed Penalty Ordinance.
9. Section 10 deals with registration of immovable property belonging to a municipality. Section 11 describes the ways in which the municipality can lawfully enter into a contract.
10. Part 3 of the Ordinance contains provisions allowing an overlapping municipality to impose and collect municipal fees on immovable property within the Areas. The amount of the fee is 0.0015% of the value of the property as assigned to that property under section 69 of the Immovable Property (Tenure Registration and Valuation) Ordinance.
11. Part 4 contains detailed provisions about the functions of the council of an overlapping municipality. These functions reflect the functions contained in the corresponding Republican Law.
12. Section 18 lists the functions of the council of an overlapping municipality. Section 18(2) provides that the council may charge fees for the collection of refuse. The fees are not to exceed those chargeable under the corresponding Republican Law.
13. Section 19 of the Ordinance lists the powers of the council. In general, these powers are identical to those set out in the corresponding Republican Law. However, section 19(3)(c) and (d) gives the council a power to request the Administrator to exercise the power under the Land Acquisition Ordinance to compulsorily acquire immovable property for an undertaking of public utility and to enter into any agreement with the Administrator as a condition for the exercise of that power. This provision is necessary because a municipality is not a public authority for the purpose of the Land Acquisition Ordinance.
14. Section 22 deals with the regulation of traffic and permits bye-laws to be made for this purpose. However, unlike in the Republic, there is no power to appoint traffic wardens.

15. Section 26 of the Ordinance permits the council to issue a notice requiring a person to stop causing a nuisance. Section 28 permits the council to take steps to put an end to the nuisance pending final judgment by a court. The court may also make an interim order to end or suspend the nuisance. Failure to comply with an interim order is a criminal offence punishable by up to 6 months imprisonment or a fine of up to €512.

16. Section 29 permits the Court to make a final order in relation to a nuisance. Sections 37 to 43 deal with the requirement to have a business licence. These sections only apply to legal persons. The requirement to have a business licence under these sections does not preclude the need to have a business licence issued under the Control (Entry, Settlement and Commercial Enterprises) Ordinance 1960.

17. Section 68 of the Ordinance delegates most of the functions of the Chief Officer to the Republic in accordance with the Delegation of Functions to the Republic Ordinance 2007. However, the power to approve regulations and bye-laws made by a municipal council remains with the Chief Officer.
