EXPLANATORY NOTE

(This note is not part of the Regulations)

Introduction

1. This explanatory note relates to the Explosive Substances (Amendment) Regulations 2011. It has been prepared by the Office of the Attorney General and Legal Adviser in order to assist the reader of the Regulations. It does not form part of the Regulations.

2. The note should be read in conjunction with the Regulations. It is not, and is not meant to be, a comprehensive description of the Regulations. So when a regulation or part of a regulation does not seem to require any explanation or comment, none is given.

Particular points

3. The Regulations are made under section 13 of the Explosive Substances Ordinance (“the Ordinance”).

4. Regulation 27 of the Explosive Substances Regulations 1940 (3/40) (“the principal Regulations”) is replaced. New regulation 27(2) provides that a person who does not have a certificate of competency must not transport, possess or handle explosive substances and that a licence holder of an explosives magazine must not allow a person who does not have a certificate to carry out these activities.

5. New regulations 27(3) to 27(6) set out the criteria which must be met before a certificate of competency is granted and the circumstances which, if in the Inspector’s opinion have arisen, provide the Inspector of Explosives with the discretion to cancel or suspend the certificate.

6. Section 4 of the Ordinance provides that the Inspector of Explosives may issue a licence to transport, possess or use explosive substances in the Areas. The Regulations insert regulation 59A into the principal Regulations. New regulation 59A(1) gives the Inspector of Explosives the discretion not to grant a licence for the use of explosive substances for activities or for events if the Inspector has safety or environmental concerns.

7. In relation to the issue of a licence to use fireworks for events, new regulation 59A(2) provides that the Inspector of Explosives may impose conditions concerning the event; when the application for the licence must be made and the hours during which fireworks may be used.

8. Various penalty provisions in the principal Regulations are amended in order to bring up to date the level of the fines.

9. Regulation 61(1) of the principal Regulations is amended to include regulation 59A. The Inspector of Explosive’s functions in regulations 59A(1) and 59A(2) are delegated to the appropriate officer in the Republic of Cyprus. As it is a qualified delegation, the officer of the Republic must consult the Inspector before carrying out these functions. This is the case for all the provisions connected with the licensing of explosive substances (except licenses for the importation of explosive substances into the Areas which is a general delegation).
